

## Big Data Architecture Workshop (BDAW)

ID BDAW   Preis auf Anfrage   Dauer 3 Tage

### Voraussetzungen

To gain the most from the workshop, participants should have working knowledge of technologies such as HDFS, Spark, Map-Reduce, Hive/Impala, Data Formats and relational database management systems. Detailed API level knowledge is not needed, as there will not be any programming activities.

### Kursinhalt

- Introduction
- Application Vertical Slice
- Application Processing
- Application Data
- Scalable Applications
- Fault Tolerant Distributed Systems
- Security and Privacy
- Deployment
- Technology Selection
- Software Architecture
