

Cloudera Training for Apache HBase (CAHB)

ID CAHB Preis auf Anfrage Dauer 3 Tage

Zielgruppe

- Developers
- Administrators
- Engineers

Voraussetzungen

- Prior experience with databases and data modeling is helpful
- Knowledge of Java
- Cloudera Developer Training for Apache Hadoop provides an excellent foundation for this course.

Kursziele

By the end of this course, you will learn:

- The use cases and usage occasions for HBase, Hadoop, and RDBMS
- Using the HBase shell to directly manipulate HBase tables
- Designing optimal HBase schemas for efficient data storage and recovery
- How to connect to HBase using the Java API to insert and retrieve data in real time
- Best practices for identifying and resolving performance bottlenecks

Kursinhalt

Cloudera University's three-day training course for Apache HBase enables participants to store and access massive quantities of multi-structured data and perform hundreds of thousands of operations per second. Through instructor-led discussion and interactive, hands-on exercises, you will learn to navigate the Hadoop ecosystem.
