Commvault Engineer – Command Center (CECC)

ID CECC   **Preis** 2'160.– € (exkl. MwSt.)   **Dauer** 3 Tage

Kursinhalt

Learn how to plan, configure, and deploy Commvault to support your data protection needs with the simplicity and elegance of Commvault' s Command Center. Start with an overview of the CommCell environment and architecture and data indexing processes as essential components for effective backup and recovery. You will then learn about options for storage design for single and hybrid recovery types, how data marked and stored, how to leverage deduplication to scale effectively, and how to configure and manage plans to avoid overloading your bandwidth. The next topics cover the protection of virtual environments and applications, followed by IntelliSnap technology to support fast and effective backups.

This course concludes with guidance on performance management.
