- Network Architect

Voraussetzungen

Requirements and preparation for attending the course: Business English

- Prepare yourself for the course in self-study.
- CISSP books are only available in English and are not part of the course. For the course you will receive a training manuscript in English specially prepared by the instructor. Preparation for the course and after the course for the self-study exam is essential! Please note the speakers' valuable tips for exam preparation. Only register for the exam date after the course! Only then can you estimate how much reworking you still need for the exam!

CISSP (Certified Information Systems Security Professional): The most-esteemed cybersecurity certification in the world. The CISSP recognizes information security leaders who understand cybersecurity strategy, as well as hands-on implementation. It shows you have the knowledge and experience to design, develop and manage the overall security posture of an organization.

Experience Required: Candidates must have a minimum of five years cumulative, paid, full-time work experience in two or more of the eight domains of the CISSP Common Body of Knowledge (CBK). Only a one-year experience exemption is granted for education.
