

# Al+ Everyone (AIEV)

# ID AIEV Preis auf Anfrage Dauer 1 Tag

### Voraussetzungen

- Understand the basics of digital technologies and how they affect life
- Awareness of ethical principles and societal impact of technology
- Curiosity and openness to learning about new concepts and technologies

#### Kursziele

### • Al Project Workflow Management

 Students will learn to manage AI project workflows from data collection and preprocessing to model building, evaluation, and deployment.

## • Ethical Decision-making in Al

 Students will critically examine AI technology and applications' ethical considerations. This includes identifying ethical issues, apply ethical frameworks, and make informed, societally beneficial judgments.

## • Creativity and Innovation with Generative AI

 Students will examine how generative AI promotes creativity and innovation. This involves deep learning-based generative models to generate new ideas, designs, and content.

### · Critical thinking and problem-solving

 Students will improve their critical thinking and problem-solving skills, evaluate approaches, and create innovative solutions, encouraging innovation and adaptability in Al problem-solving.
