

NiFi 2.0: Data Flow Migration and AI Integration (DOPS-243)

ID DOPS-243 **Preis** US \$ 1'760.— (exkl. MwSt.) **Dauer** 2 Tage

Zielgruppe

This course is designed for developers, data engineers, administrators, and others with an interest in learning NiFi's innovative no-code, graphical approach to data ingest. Although programming experience is not required, basic experience with Linux is presumed, and previous exposure to big data concepts and applications is helpful.

Voraussetzungen

Participants should have a foundational understanding of data flow concepts and experience with Apache NiFi. Familiarity with Python programming is beneficial but not mandatory.

Kursziele

During this course, you learn how to:

- Integrate Generative AI with Apache NiFi 2.0, including practical use cases.
- Understand the key changes in NiFi 2.0 compared to NiFi 1.x, such as deprecated processors and their new replacements.
- Clarify the differences between open-source NiFi 2.0 and Cloudera CFM4 with NiFi 2.0, with a focus on Cloudera-specific processors for GenAI.
- Perform a migration from NiFi 1.x to NiFi 2.0 and effectively monitor your new NiFi 2.0 instance.
