

# Gigamon Inline Bypass: Designing and Implementing Inline Bypass (ILB SOLUTIONS)

**ID ILB SOLUTIONS** **Preis** CHF 995.– (exkl. MwSt.) **Dauer** 1 Tag

## Zielgruppe

The primary target audiences for the course are:

- Security Ops teams that need to understand how Gigamon Inline Bypass Solutions function in relation to designing and deploying solutions utilizing these features.
- Network Ops teams that are familiar with Gigamon, and will be implementing a Classic or Flexible Inline Bypass solution. These include roles like architects, admins, and operators.

## Voraussetzungen

**Mandatory Requirement:** Customers must have knowledge of or have taken the [Gigamon Foundations I: Insight into Network Data Across Your Network \(GFD1\)](#) course before they take this one-day course. As a follow on course to the Gigamon Foundations I course, learners are expected to already possess these skills, abilities, and knowledge:

- Data security protection and prevention fundamentals
- Fundamentals of route switch technologies

## Kursziele

After completing this course, you will understand:

- Understand the different uses for Classic and Flexible inline solutions
- Learn design considerations important when implementing an inline bypass solution
- Implement Classic and Flexible inline solutions
- Understand how to implement inline resiliency
- Learn best practices and how to overcome common challenges
