

HPE Compute Solutions (H61K8S)

ID H61K8S **Preis** CHF 4'500.– (exkl. MwSt.) **Dauer** 5 Tage

Zielgruppe

The ideal candidate for this course is someone who needs to learn how to describe, position, recommend, and demonstrate HPE compute solutions to meet a customer's business and technology requirements. Typical candidates are sales and technical consultants, sales, systems and pre-sales engineers

Voraussetzungen

HPE recommends the training required for:

- HPE ATP – Hybrid IT Solutions v2
- certification as a pre-requisite to this course.

Kursziele

Upon completion of this course, you should be able to:

- Explain and position the HPE compute product portfolio
- Describe HPE Synergy components
- Work with server profile templates and server profiles
- Explain storage management using HPE OneView
- Describe HPE management solutions
- Describe vSAN setup for ROBO and vVols
- Identify troubleshooting methods and tools
- Work with a HPE Superdome Flex

Kursinhalt

This course covers a wide range of HPE compute solutions including:

- Full coverage of HPE Synergy platform including HPE OneView
- Introduction to HPE Primera in the compute context (for example, boot from SAN)
- Introduction of HPE Superdome Flex and HPE Superdome Flex 280 technologies
- Automation with PowerShell scripting
- Full integration of HPE OneView for VMware vCenter Server® and HPE Storage Integration Pack for VMware vCenter®
- Basics of virtualization with HPE OneView integration
