HPE Intelligent Management Center - Managing and Monitoring your Network (HQ7C1S)

ID HQ7C1S **Preis** auf Anfrage **Dauer** 3 Tage

Zielgruppe

This course is intended for network or systems administrators, network engineers, and consultants who plan to deploy, manage, monitor, and configure HPE Intelligent Management Center

Voraussetzungen

Learners should have some networking experience to get the most from this training course. They should:

- Understand networking, along with IPv4 addressing
- Have some knowledge of the CLI commands on HPE Aruba Switches (AOS and CX), Comware v7 and Cisco (this knowledge is beneficial, but not required)
- Understand file architecture on Comware and Aruba, including Telnet/SSH, and start up and saved configurations
- Understand SNMP configuration
- Understand traps and how they are configured on the switches

Kursziele

By the end of the course, you should be able to:

- Understand the HPE Intelligent Management Center installation process and how to initially access HPE Intelligent Management Center
- Understand how to add devices into HPE Intelligent Management Center using auto discovery
- Understand the different views in HPE Intelligent Management Center and how they can be utilized
- Understand the Configuration Centre and how it can be used for configuration management
- Understand how alarms and traps are generated in HPE Intelligent Management Center
- Understand how HPE Intelligent Management Center can be used to manage, monitor and configure VLANs.
- Understand how HPE Intelligent Management Center can be used for performance management

- Understand how HPE Intelligent Management Center can be used for virtualization resource management
- Understand how to troubleshoot HPE Intelligent Management Center

Kursinhalt

- Module 1: HPE Intelligent Management Center Introduction
- Module 2: Installation and Initial Access
- Module 3: Adding Devices
- Module 4: Trap Management
- Module 5: View Management
- Module 6: Configuration Management
- Module 7: Alarms and Events
- Module 8: VLAN Management
- Module 9: Performance Management
- Module 10: Virtualization Management
- Module 11: Troubleshooting HPE Intelligent Management Center
