

Deep Learning in Theory and Practice (HU0F0S)

ID HU0F0S **Preis** CHF 1'800.– (exkl. MwSt.) **Dauer** 2 Tage

Zielgruppe

- This course is ideal for data engineers, data scientists, researchers, solution architects, software engineers, AI enthusiasts, statisticians and other IT professionals looking for a practical foundation in deep learning with neural networks.

Voraussetzungen

- Basic understanding of any programming or scripting language

Kursziele

At the end of this course, you will be able to:

- Design and develop neural network models in structured frameworks
- Understand core buzzwords and terminology
- Kick-start a deep learning project
- Build a suitable deep learning model for a given problem statement
- Export the deep learning model for consumption by other app developers
