Db2 12 for zOS Advanced Database Administration (CV880G)

ID CV880G   **Preis** CHF 2'150.– (exkl. MwSt.)   **Dauer** 2 Tage

Zielgruppe

Students needing to augment their skill set in administering a Db2 12 for z/OS database environment.

Voraussetzungen

- Familiarity with the z/OS operating system, including TSO, ISPF, and SDSF.
- Familiarity with SQL DML (SELECT, INSERT, UPDATE, DELETE, and MERGE) and DDL (CREATE, ALTER, DROP) statements
- Basic skills administering a Db2 12 for z/OS database environment, including the use of basic utilities, serialization, and basic database security.

Kursinhalt

This course will introduce the student to advanced database administration skills, including program preparation and the use of packages, online schema changes, partition management, and stored procedures; as well as performance and availability features of utilities (including LOAD, REBUILD INDEX, REORG, and UNLOAD). This course does not cover distributed data processing, nor does it cover data sharing.
