

IBM Security Identity Manager Foundations (TW255G)

ID TW255G Preis CHF 3'300.– (exkl. MwSt.) **Dauer 4 Tage**

Zielgruppe

This course is designed for system administrators and implementers who deploy and manage IBM Security Identity Manager in an organization.

Voraussetzungen

Before taking this course, make sure that you have the following skills:

- Familiarity with LDAP and TCP/IP fundamentals
- Familiarity with JavaScript
- Familiarity with Linux

Kursinhalt

This is an instructor-led course that introduces students to the foundational skills required to install, configure, and administer IBM Security Identity Manager. IBM Security Identity Manager can be deployed using the following formats software stack and virtual appliance. This course applies to both formats.

The course also includes many hands-on exercises to supplement the lecture. The hands-on labs are conducted using Identity Manager v.7.0.1.10.
