# Fast Lane

# IBM MQ V8 System Administration for z/OS (WM302G)

**ID** WM302G   **Preis** CHF 3'950.– (exkl. MwSt.)   **Dauer** 4 Tage

## Zielgruppe

This intermediate course is designed for technical support personnel who implement, operate, and perform day-to-day administration of IBM MQ V8 on z/OS.

## Voraussetzungen

You should have:

- Basic knowledge of IBM MQ V8 concepts, obtained through experience or by successfully completing course Technical Introduction to IBM MQ (WM103G)
- Working proficiency with the z/OS platform, obtained through experience or by successfully completing course Fundamental System Skills in z/OS (ES10G)

Knowledge of TCP/IP is also helpful.

## Kursziele

This course provides the skills that are necessary to configure and manage an IBM MQ V8 queue manager on z/OS.

Through lectures and hands-on lab exercises, you learn how to install, customize, operate, and administer IBM MQ V8. The course covers configuring a z/OS queue manager, setting up distributed queuing, IBM MQ clustering, IBM MQ on z/OS recovery and restart, security, and performance considerations. It also covers day-to-day administration and problem recovery. The hands-on lab exercises give you direct experience with IBM MQ V8 tasks such as defining and monitoring channels, configuring IBM MQ clusters, and problem determination activities.
