

CICS Command Level Coding (WM865G)

ID WM865G **Preis** CHF 4'000.– (exkl. MwSt.) **Dauer** 5 Tage

Zielgruppe

This intermediate course is designed for application developers and analysts who design, code, and debug CICS command level applications.

Voraussetzungen

You should have:

- Working knowledge of the underlying operating system platforms
- Basic knowledge of CICS fundamentals as taught in CICS V5 Fundamentals (WM851G)
- COBOL or PL/I application development skills
- Basic knowledge of application design and programming

Kursinhalt

In this course, you learn how to design, code, and debug command-level CICS application programs for e-business or traditional environments. The course applies to the entire family of CICS products.
