
Junos OS Evolved for Cloud Networking (JECN)

ID JECN Preis auf Anfrage Dauer 3 Tage

Zielgruppe

This course benefits individuals responsible for working with Junos Evolved.

Voraussetzungen

The prerequisites for this course include:

- An intermediate-level understanding of Junos configuration and troubleshooting.

Kursziele

After successfully completing this course, you should be able to:

- Identify key differences between Junos OS and Junos Evolved
- Explain the high-level architecture of Junos Evolved
- Identify the components of Junos Evolved
- Explain basic Linux functions in the context of Junos Evolved
- Perform configuration tasks in Junos Evolved
- Perform management tasks in Junos Evolved
- Deploy third-party and custom applications in Junos Evolved
- Explain the fundamentals of Docker containers
- Deploy Docker container-based applications on Junos Evolved
- Understand how Junos Evolved manages system state
- Understand the Junos Evolved network stack and host packet path
- Explain logging and tracing in Junos Evolved
- Perform basic troubleshooting tasks in Junos Evolved

Kursinhalt

- Course Introduction
- Junos Evolved Overview
- Junos Evolved Software Architecture
- Linux Basics for Junos OS Evolved
- Junos OS Evolved Configuration Tasks
- Junos OS Evolved Management Tasks
