Red Hat Transformational Learning: Introduction to Pragmatic Site Reliability Engineering (TL112)

ID TL112   **Preis** CHF 1'890.– (exkl. MwSt.)   **Dauer** 2 Tage

Zielgruppe

- DevOps Practitioners
- System Administrators
- Software Developers

Voraussetzungen

- There are no prerequisites for this course.

Kursziele

Impact on the organization

Organizations moving toward DevOps transformation may consider implementing practices defined in Site Reliability Engineering. This course provides the fundamental concepts and terminology required for teams to speak a common language and gain a shared understanding of how to implement SRE within their teams.
Impact on the individual

After successfully completing this course, a student will gain an understanding of Site Reliability Engineering and how it relates to their understanding of the role and fit within an organization. The student will be prepared to continue the Transformational Learning path.

Kursinhalt

- Introduction to Site Reliability Engineering
- Determining Operational Readiness
- Describing Toil and Implementing Automation
- Explaining and Calculating Error Budgets
- Explaining Incident Management
- Implementing Site Reliability Engineering
