

AI+ Marketing (AIM)

ID AIM Price CHF 995.—(excl. VAT) Duration 1 day

Prerequisites

- Profound understanding of marketing principles like segmentation, branding, and marketing mix and how businesses leverage marketing strategies.
- Familiarity with digital marketing tools and concepts. Participants should be comfortable using CRM software, analytics platforms, and other AI digital marketing tools.
- Basic understanding of strategic decision-making processes within marketing contexts and how marketing strategies are developed, implemented, and measured for effectiveness.
- Participants should have proactive interest in exploring the potential of artificial intelligence to transform marketing practices and overall marketing efficiency

Course Objectives

- **AI-Driven Marketing Strategy Development**
 - Students will learn to create complete marketing plans using AI. This involves AI-driven content strategy, customization, and analytics to analyze market data, identify target audiences, and create customized marketing campaigns.
- **AI-driven A/B testing**
 - Participants will learn to build trials, analyze outcomes, and iterate marketing strategies to increase performance.
- **Data Visualization**
 - The course may teach marketing analytics insights visualization. Students will learn to design visually appealing dashboards and reports to explain complicated data and aid data-driven decision-making.
- **Risk Management and Compliance**
 - AI marketing course covers risk management and compliance. This includes identifying and mitigate data security, regulatory compliance, and reputation management issues to ensure legal and ethical marketing activities.
