

Designing and Implementing Storage on AWS (DISTG)

ID DISTG **Price** CHF 2,470.—(excl. VAT) **Duration** 3 days

Who should attend

This course is intended for:

- Solution Architects
- Cloud Storage Engineers
- Cloud Operations Specialists
- DevOps Engineers

Prerequisites

We recommend that attendees of this course have:

- Completed AWS Cloud Practitioner Essentials [AWS Cloud Practitioner Essentials \(CP-ESS\)](#), AWS Technical Essentials [AWS Technical Essentials \(AWSE\)](#), or equivalent real world experience

Course Objectives

In this course, you will learn to:

- Describe the benefits of the core AWS storage services and identify some of their primary use cases
- Select and design an appropriate storage solution according to application and business requirements
- Configure storage resources to work with the broad array of AWS service offerings
- Select the right method to move data between on-premises workloads and the AWS Cloud
- Design storage solutions to protect data at rest and in transit
- Set up monitoring and observability for Cloud storage to gain insight into access patterns, utilization, and efficiency
- Design and optimize storage solutions according to cost, scalability, and performance requirements
