Engineering Cisco Meraki Solutions Part 1 (ECMS1)

ID ECMS1   **Price** CHF 1,160.—(excl. VAT)   **Duration** 1 day

Who should attend

This course is designed for:

- Meraki operators interested in introductory-level technical training or in preparing for the Cisco Meraki Solutions Specialist certification
- Anyone who would like to gain experience in understanding, configuring, and troubleshooting Meraki networking environments with the Meraki Dashboard

*If you have already taken CMNO, we do not recommend that you enroll in the course as the content is the same.

The course is also ideal for those who hold the following titles:

- Consulting Systems Engineer
- Deployment Engineer
- Network Administrator
- Network Engineer
- Network Manager
- Site Reliability Engineer
- Systems Engineer
- Technical Solutions Architect
- Wireless Design Engineer
- Wireless Engineer

Prerequisites

Before taking this course, you should have earned a CCNA certification or be familiar with:

- Basic network fundamentals and building simple LANs
- Basic IP addressing and subnets
- Routing and switching fundamentals
- Basic wireless networking concepts and terminology

The following recommended Cisco offering may help you meet these prerequisites:

- Implementing and Administering Cisco Solutions (CCNA)

Course Objectives

After taking this course, you should be able to:

- Describe cloud architecture, administration, and licensing
- Understand hardware and features of all product families
- Implement best practices for troubleshooting and when to contact support
