

Generative AI on Cloudera (DSCI-273)

ID DSCI-273 **Price** US \$ 1,760.—(excl. VAT) **Duration** 2 days

Who should attend

This course is designed for data scientists and machine learning engineers who need to understand how to utilize Cloudera AI to leverage the full power of their enterprise data, generative AI, and Large Language Models and deliver powerful business solutions.

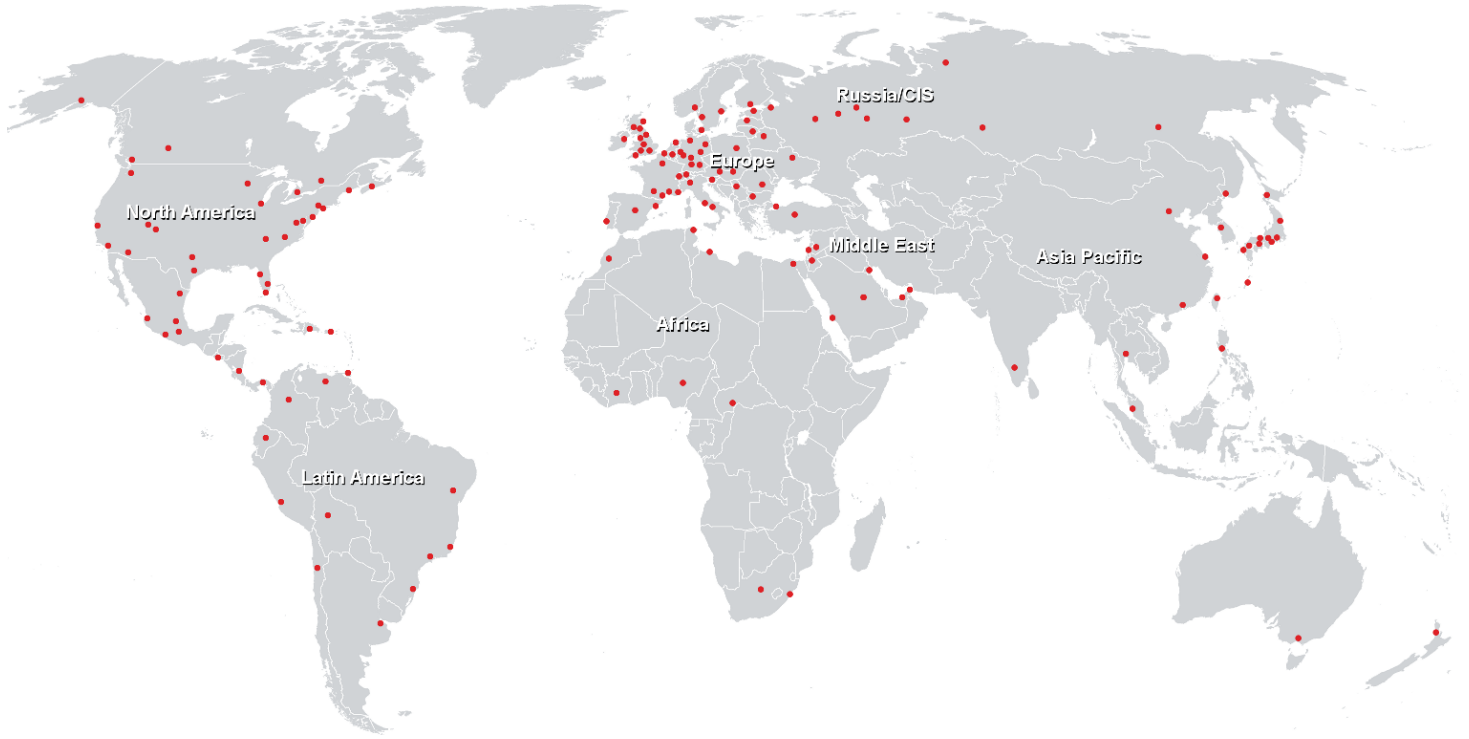

Course Objectives

Through lecture and Hands-On exercises, you will learn how to:

- Select the right LLM model for a use case
- Configure a Prompt for an LLM
- Use Retrieval Augmented Generation (RAG)
- Fine Tune an LLM Model with Enterprise Data
- Use the AI Model Registry and host an LLM
- Create an AI Agent with Crew AI
