

RecoverPoint for Virtual Machines Implementation and Administration (RPVMIA)

ID RPVMIA **Price** US \$ 2,200.—(excl. VAT) **Duration** 2 days

Who should attend

This course is intended for anyone looking to deploy and manage a RecoverPoint for Virtual Machine environment.

- VM Automation and Orchestration
- Recovery of Virtual Machines with RecoverPoint for VMs
- Advanced Administration for RecoverPoint for VMs

Prerequisites

A general understanding of a VMware environment along with a fundamental knowledge of RecoverPoint for Virtual Machines.

Course Objectives

Upon successful completion of this course, participants will be able to:

- Describe the critical aspects in planning for and deploying a RecoverPoint for VMs System.
- Explain the procedure to install virtual RecoverPoint Appliances (vRPAs) from an OVA file.
- Describe the methods for installing a RecoverPoint for Virtual Machines System using the RecoverPoint for VMs Deployer.
- List the requirement for licensing and registering a RecoverPoint for VMs System
- Describe the procedures to protect Virtual Machines using RecoverPoint for VMs.
- Explain the automation methods available with RecoverPoint for VMs.
- Describe the recovery procedures used with RecoverPoint for VMs.

Course Content

- Pre-Deployment Considerations
- RecoverPoint for VMs Cluster Installation
- RecoverPoint for VMs Cluster Licensing and Registration
- RecoverPoint for VMs Overview
- Protecting a Virtual Machine with RecoverPoint for VMs
- Editing a Consistency Group's Properties
- Monitoring RecoverPoint for VMs
