

VxRail Installation and Implementation (VXRIA)

ID VXRIA **Price** US \$ 3,300.—(excl. VAT) **Duration** 3 days

Who should attend

This course is intended for Dell EMC employees and Dell EMC partners who are responsible for the deployment and implementation of VxRail Appliance at customer sites.

Prerequisites

- Basic understanding of converged and hyper-converged infrastructure
- Technical proficiency with all VMware vSphere components
- Knowledge of Layer-2 Networking

Course Objectives

Upon successful completion of this course, participants should be able to:

- Describe the VxRail installation and implementation process
- Download, review, and validate the Pre-Engagement Questionnaire (PEQ)
- Perform pre-deployment preparation and validation tasks
- Deploy a VxRail system with embedded or external vCenter Server
- Deploy a vSAN 2-node VxRail cluster
- Perform post-deployment validation tasks
- Perform cluster expansion
- Perform software upgrade
- Perform installation troubleshooting

Course Content

- Plan and Prepare for Deployment
- Prepare the Site for System Initialization
- Validate the Customer Environment for Deployment
- Deploy a VxRail Cluster
- Perform Post Deployment Tasks
- Generate Customer Deliverables
- Perform Software Upgrade
- Cluster Expansion and Stretched Cluster Deployment
- Implementation Troubleshooting
