FortiGate Immersion (NSE4I)

ID NSE4I **Price** on request **Duration** 1 days

Who should attend

Networking and security professionals involved in the management, configuration, administration, and monitoring of FortiGate devices used to secure their organizations' networks should attend this course.

This course is ideal for students who have already taken !FortiGate Administrator (FGT-ADM), or have equivalent working experience, and want to get more hands-on lab practice before taking the FortiGate 7.4 Administrator certification exam.

Prerequisites

You must have an understanding of the topics covered in ! FortiGate Administrator (FGT-ADM) (or have equivalent experience).

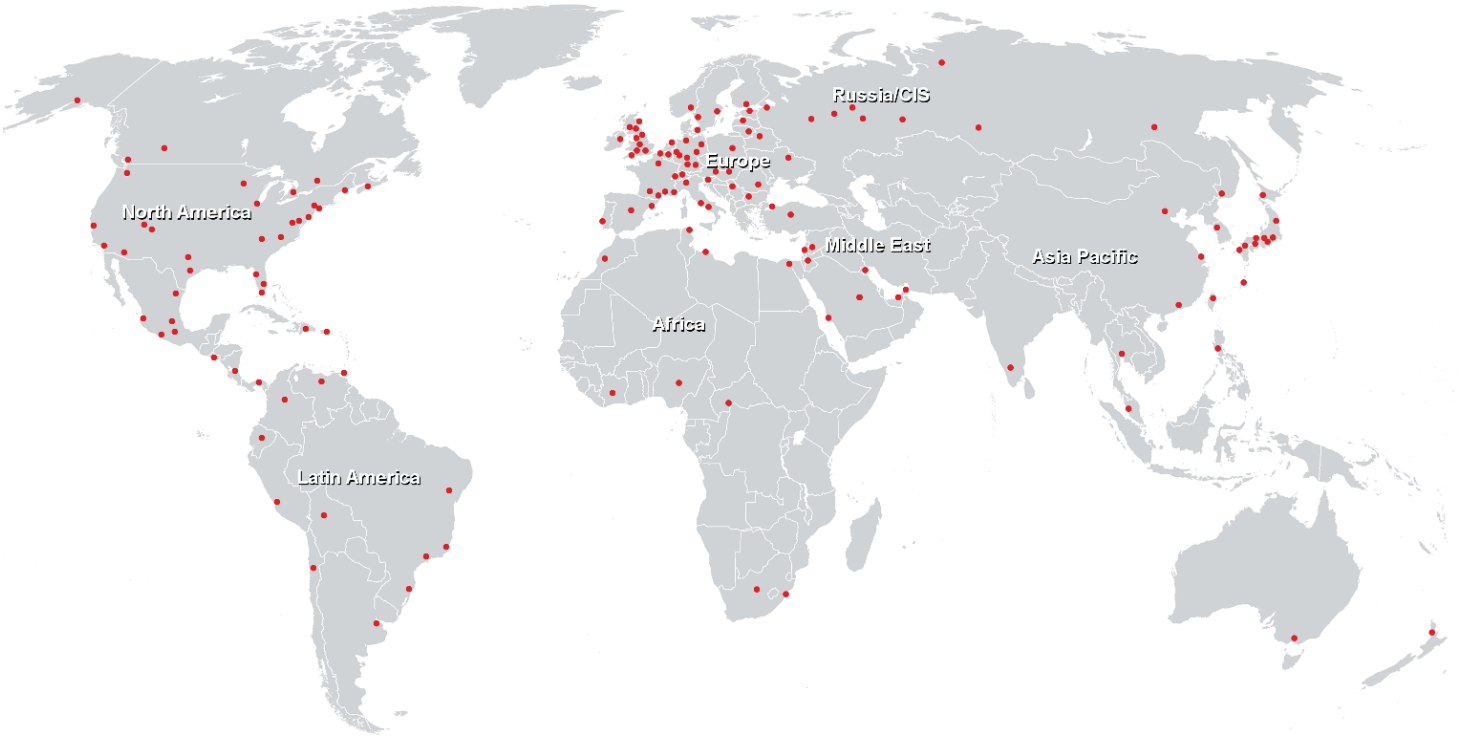

Course Objectives

After completing this course, you should be able to:

- Use the GUI and CLI for administration
- Control access to network resources using firewall policies
- Authenticate users using firewall policies
- Inspect SSL/TLS-secured traffic to prevent encryption used to bypass security policies
- Apply web filter and application control techniques to monitor and control network applications that might use standard or non-standard protocols and ports
- Protect your network against known attacks using IPS signatures
- Configure SSL VPN and IPSec VPN for remote access
- Route packets using ECMP routing
- Deploy FortiGate devices as an HA cluster for fault tolerance and high performance
- Configure the Fortinet Security Fabric
