Agentic AI Governance Essentials (AAIGE)

ID AAIGE **Price** CHF 350.—(excl. VAT) **Duration** 3 hours

Who should attend

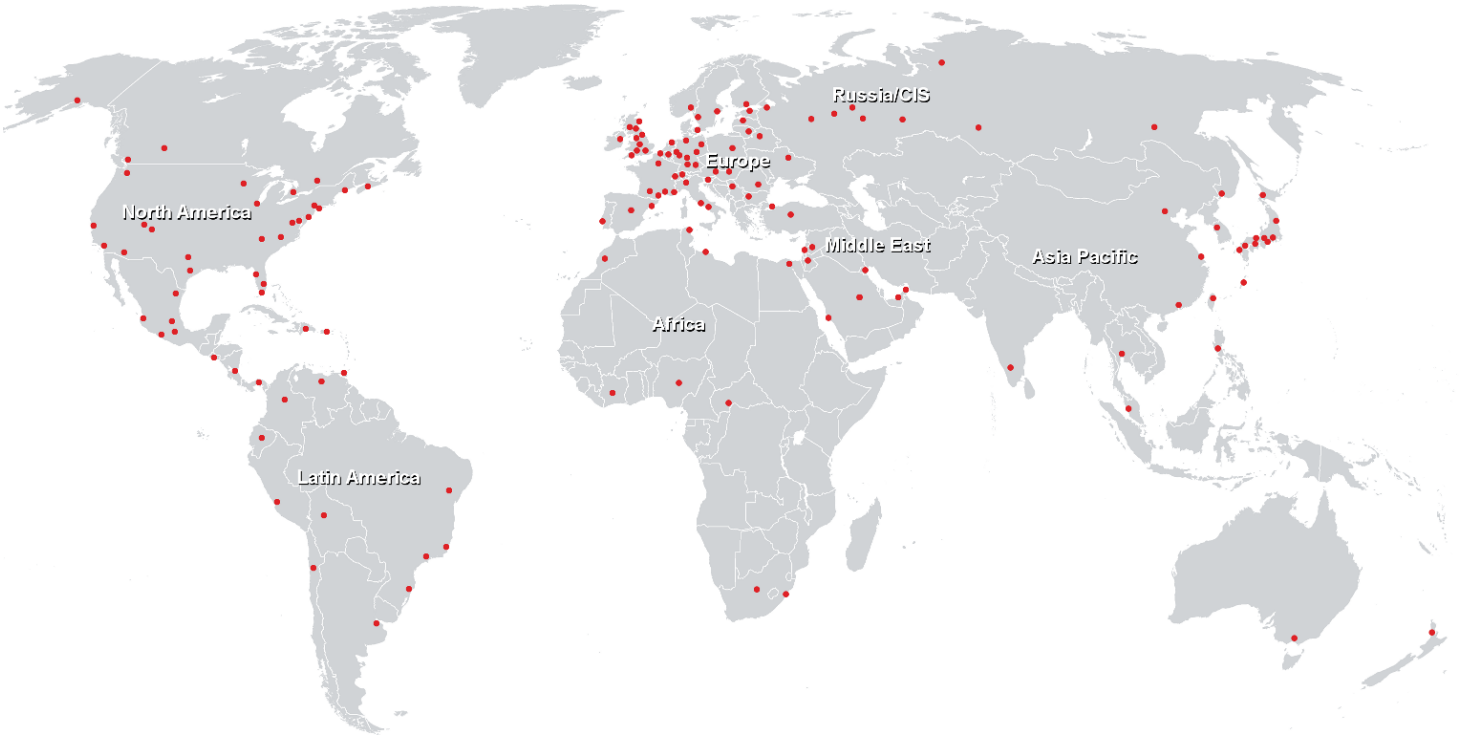

- Business leaders
- Technical practitioners
- Governance professionals

Course Objectives

Learners will gain an understanding of:

- Defining Agentic AI and identifying the key risk vectors unique to autonomous systems (e.g., opacity of logic and the accountability void).
- Establishing the foundational structure, including a cross-functional AI governance committee and core ethical principles.
- Implementing technical enforcement mechanisms, such as real-time audit logging (Decision Provenance Logs) and building in technical guardrails like the Human Veto Point (HVP).
- Scaling governance enterprise-wide by standardizing tooling, establishing a centralized orchestration platform, and integrating controls into the CI/CD pipeline.
- Leveraging governance as a competitive advantage by shifting from oversight to enablement and monetizing trust through external transparency.
