Build Production-Ready Agents on Google Cloud (BPRAGC)

ID BPRAGC **Price** CHF 550.—(excl. VAT) **Duration** 1 days

Who should attend

Generative AI developers, AI engineers and agentic system architects.

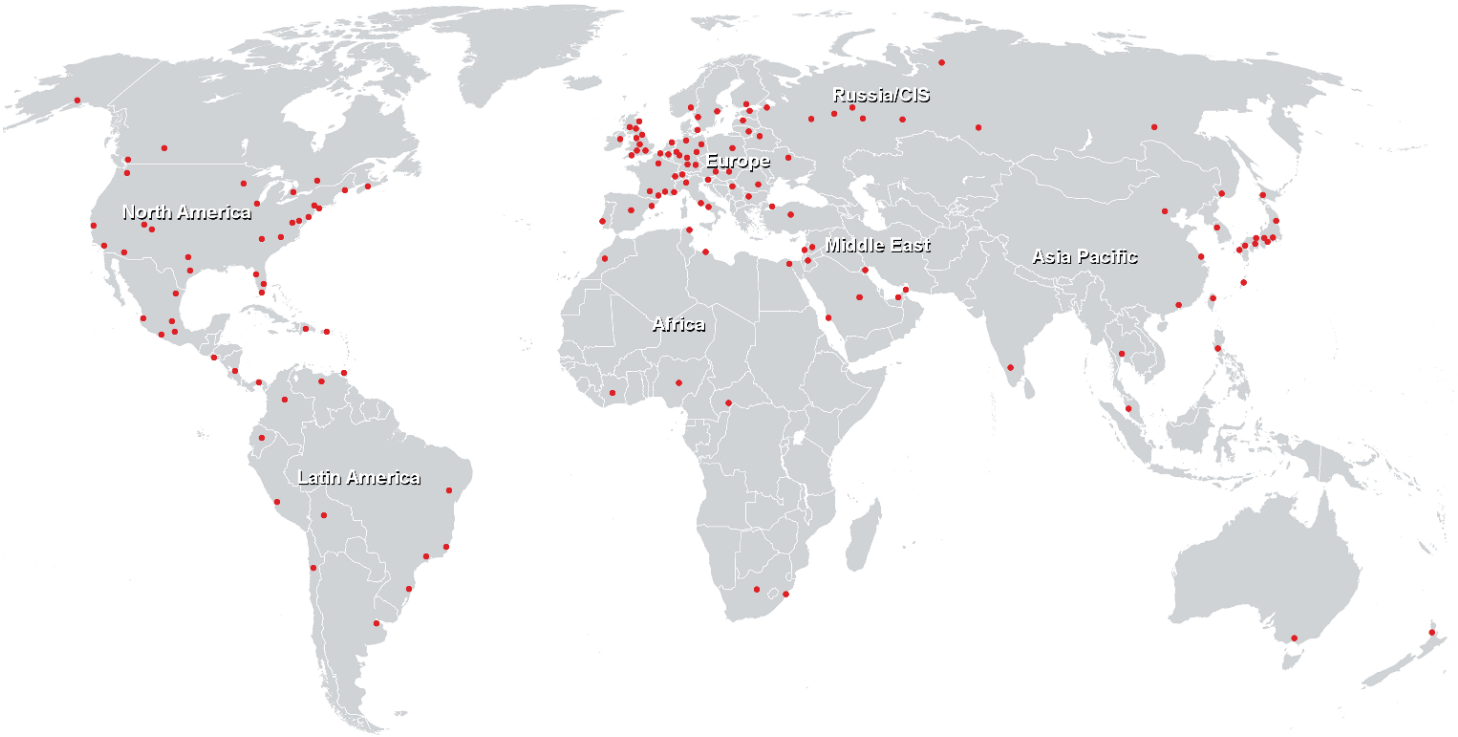

Prerequisites

- Completion of Deploy Multi-Agent Systems with Agent Development Kit and Agent Runtime (DMASADKAE) or equivalent knowledge
- Python
- Prompt engineering
- Agent Development Kit

Course Objectives

- Reinforce understanding of Google's Agentic Stack.
- Leverage state, memory, and example services for context management in agents
- Gain proficiency in Model Context Protocol (MCP) tool usage and server creation.
- Apply design principles necessary for creating A2A multi-agent solutions.
- Understand Human-Agent interaction patterns and build full, agent-enabled applications.
