
Govern agents on Gemini Enterprise Agent Platform (GAGEAP)

ID GAGEAP **Price** CHF 350.—(excl. VAT) **Duration** 4 hours

Who should attend

Architects, Cloud Developers, AI Engineers, Security Experts.

Prerequisites

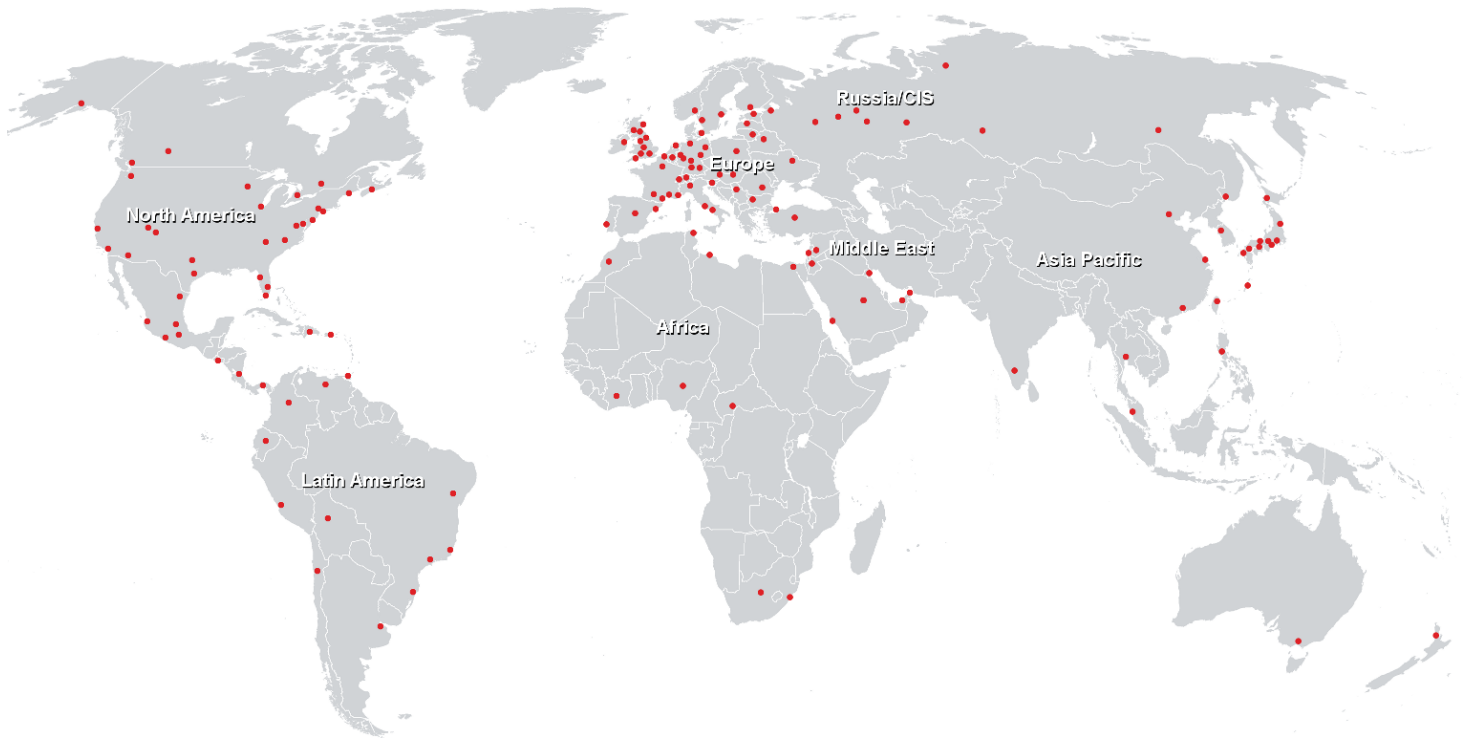

Working knowledge of building ADK agents and deploying them to Agent Runtime.

Course Objectives

- Deploy Agent Gateway as the centralized solution for managing network and content security.
- Implement content security guardrails using Model Armor and Cloud DLP to mitigate semantic threats like prompt injection and data leakage.
- Establish a zero-trust security perimeter using unique Agent Identity with mTLS, per-tool authorization with REQUEST_AUTHZ, and granular CEL policies.
- Discover agent tools through the Agent Registry and ensure end-to-end observability and threat detection using Cloud Trace and Security Command Center.

Training Centres worldwide
