Generative AI in Production (GAIP)

Who should attend

Developers and machine learning engineers who wish to operationalize Gen AI-based applications

Prerequisites

Completion of Introduction to Developer Efficiency with Gemini on Google Cloud (IDEGC) or equivalent knowledge.

Course Objectives

- Describe the challenges in productionizing applications using generative AI.
- Manage experimentation and evaluation for LLM-powered applications.
- Productionize LLM-powered applications.
- Implement logging and monitoring for LLM-powered applications.
