# Getting Started with Google Kubernetes Engine (GCP-GSGKE)

**ID** GCP-GSGKE **Price** CHF 850.—(excl. VAT) **Duration** 1 days

## Who should attend

- Application developers, cloud solutions architects, DevOps engineers, IT managers
- Individuals who use Google Cloud to create new solutions or to integrate existing systems, application environments, and infrastructure with Google Cloud.

## This course is part of the following Certifications

Google Cloud Certified Associate Cloud Engineer (ACE)
Google Cloud Certified Professional Cloud Architect (PCA)

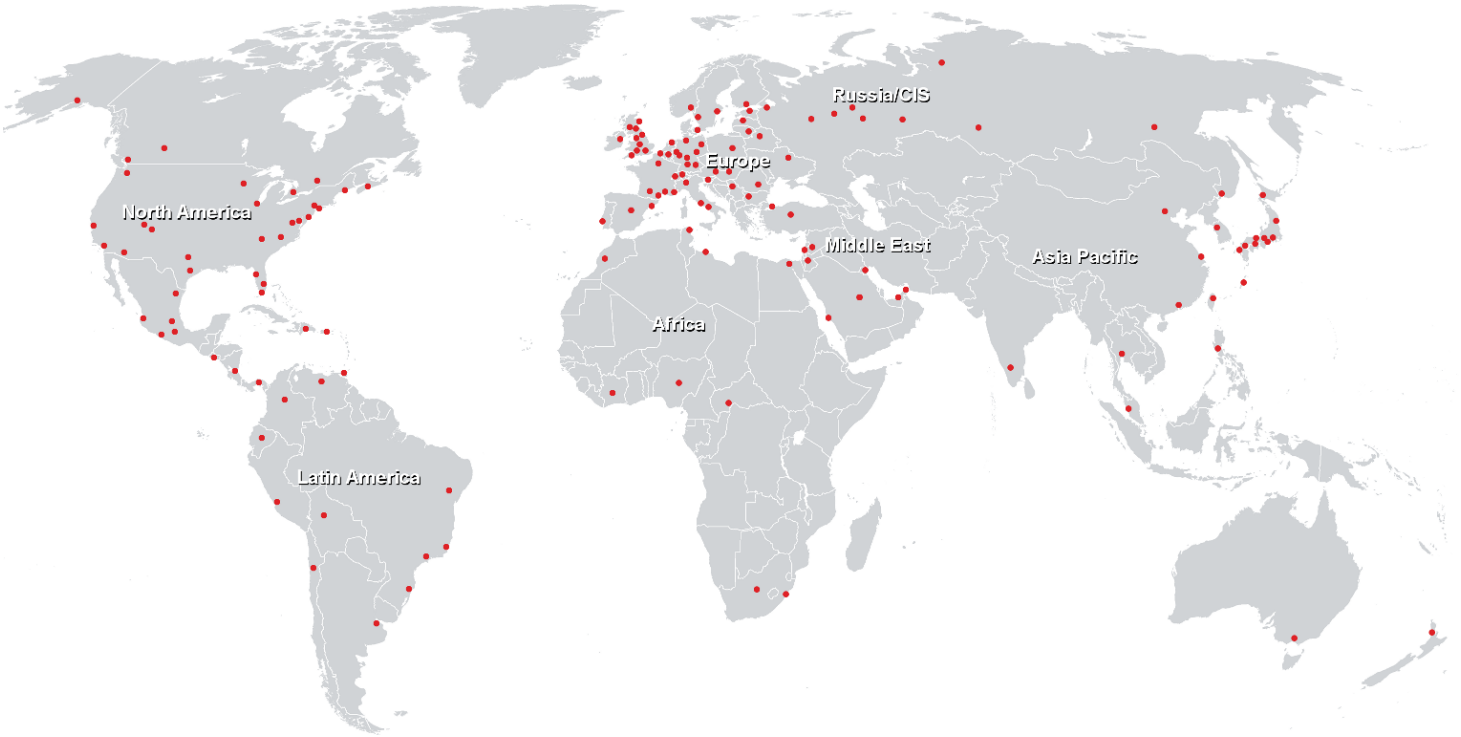

## Prerequisites

- Having completed Google Cloud Fundamentals: Core Infrastructure (GCF-CI), or having equivalent experience
- Basic proficiency with command-line tools and Linux operating system environments

## Course Objectives

- Discuss the differences among Google Cloud compute platforms.
- Discuss the components and architecture of Kubernetes.
- Identify how Google manages Kubernetes orchestration.
- Create and manage Google Kubernetes Engine clusters by using the Google Cloud console and the gcloud/kubectl commands.
