
Looker Developer Deep Dive (LDDD)

ID LDDD **Price** CHF 1,700.—(excl. VAT) **Duration** 2 days

Who should attend

Looker Developers who want to learn how to get the most out of LookML, leveraging features like Liquid, aggregate tables, modular LookML files, Looker DevOps, and embedding their Looker content.

Prerequisites

Completion of the “Developing Data Models with LookML” course or the equivalent experience in using LookML for development in Looker.

Course Objectives

- Customize and incrementally refresh SQL and native derived tables
- Incorporate Liquid for dynamic SQL, formatting, templated filters, and parameters in Looker
- Use extends and refinements in Looker to modularize and organize your LookML
- Troubleshoot LookML code and improve performance
- Apply Looker best practices to your LookML projects
- Manage Looker deployments using DevOps practices
- Embed Looker content into web applications
