Agent Platform for Machine Learning Practitioners (VAIMLP)

ID VAIMLP **Price** CHF 850.—(excl. VAT) **Duration** 1 days

Who should attend

Machine Learning Engineers, Data Scientists

Prerequisites

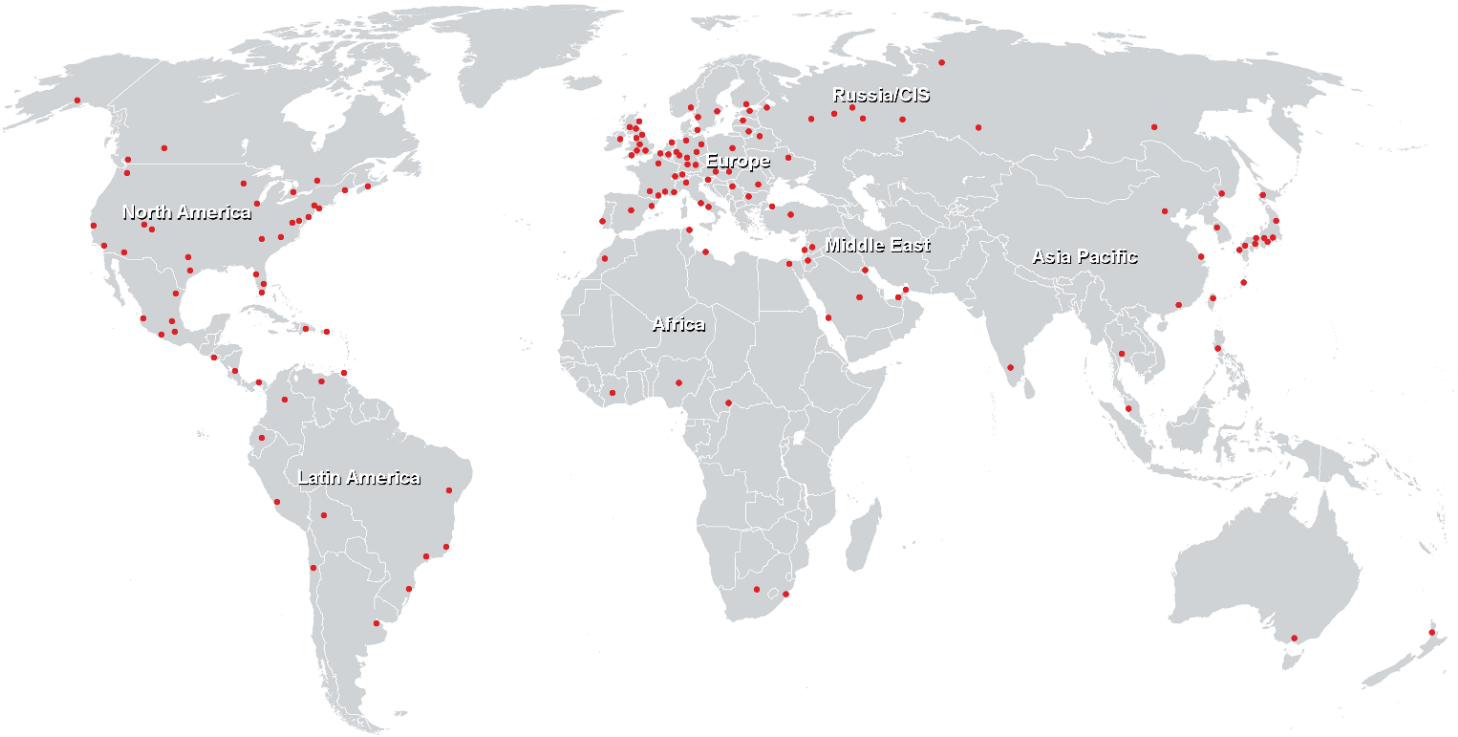

Experience building and training custom ML models. Familiar with Docker.

Course Objectives

By the end of the course, learners will be able to:

- Understand the key components of Agent Platform and how they work together to support your ML workflows.
- Configure and launch Vertex AI Custom Training and Hyperparameter Tuning Jobs to optimize model performance.
- Organize and version your models using Agent Platform Model Registry for easy access and tracking.
- Configure serving clusters and deploy models for online predictions with Agent Platform Endpoints.
- Operationalize and orchestrate end-to-end ML workflows with Agent Platform Pipelines for increased efficiency and scalability.
- Configure and set up monitoring on deployed models
