

HPE SimpliVity System Administration (H0LP9S)

ID H0LP9S **Price** on request **Duration** 2 days

Who should attend

This course is intended for infrastructure administrators and system engineers who need to learn how to administer HPE SimpliVity.

- Module 4a: Working with HPE SimpliVity Part-1
- Module 4b: Working with HPE SimpliVity Part-2
- Module 5: HPE SimpliVity Upgrades, Support and InfoSight

Prerequisites

HPE recommends that students attend training or attain experience in the following areas before taking this class:

- Networking technologies
- VMware vSphere® 6.5+
- HPE ProLiant servers

Course Objectives

Upon completion of this training, the participant will be able to:

- Describe the various components that form the HPE SimpliVity federation
- Distinguish between peer-managed and centrally-managed HPE SimpliVity federations
- Identify how VM data is stored across HPE SimpliVity clusters
- Create datastores and perform different tasks associated with HPE SimpliVity datastores
- Explain the various HPE SimpliVity operations like Clone or Move VM
- Create manual and policy-based backups and use them for restore
- Configure external stores for secondary backup
- Perform basic support tasks on the HPE SimpliVity federation
- Use RapidDR to reduce service disruptions by automating remote site recovery

Course Content

- Module 1: Introduction to HPE SimpliVity
- Module 2: HPE SimpliVity Architecture
- Module 3: HPE SimpliVity Portfolio
