

HPE SimpliVity System Administration (H0LP9S)

ID H0LP9S Price on request Duration 2 days

Who should attend

This course is intended for infrastructure administrators and system engineers who need to learn how to administer HPE SimpliVity.

Prerequisites

HPE recommends that students attend training or attain experience in the following areas before taking this class:

- Networking technologies
- VMware vSphere® 6.5+
- HPE ProLiant servers
- **Course Objectives**

Upon completion of this training, the participant will be able to:

- Describe the various components that form the HPE SimpliVity federation
- Distinguish between peer-managed and centrally-managed HPE SimpliVity federations
- Identify how VM data is stored across HPE SimpliVity clusters
- Create datastores and perform different tasks associated with HPE SimpliVity datastores
- Explain the various HPE SimpliVity operations like Clone or Move VM
- Create manual and policy-based backups and use them for restore
- Configure external stores for secondary backup
- Perform basic support tasks on the HPE SimpliVity federation
- Use RapidDR to reduce service disruptions by automating remote site recovery
- **Course Content**
 - Module 1: Introduction to HPE SimpliVity
 - Module 2: HPE SimpliVity Architecture
 - Module 3: HPE SimpliVity Portfolio

- Module 4a: Working with HPE SimpliVity Part-1
- Module 4b: Working with HPE SimpliVity Part-2
- Module 5: HPE SimpliVity Upgrades, Support and InfoSight
