Fast Lane

HPE OneView for Synergy Advanced Topics (H8PF6S)

ID H8PF6S **Price** on request **Duration** 3 days

Who should attend

This course is ideal for administrators managing an HPE Synergy platform who want to extend their knowledge on more advanced HPE OneView features and integration.

Prerequisites

Before attending this course, you should be able to:

- Perform HPE OneView and HPE Synergy Administration tasks in an HPE Synergy environment
- It is strongly recommended that you complete the H0LN3S HPE Synergy Administration course and gain six months of experience in HPE Synergy administration prior to attending this course

Course Objectives

After completing this course, you should be able to:

- Explain advanced HPE OneView features including firmware management
- Use HPE OneView for VMware vCenter Server® for workload management
- Manage HPE OneView security and perform basic troubleshooting
- Use PowerShell Library for HPE OneView for automation

Course Content

- Module 1: HPE OneView Advanced Features
- Module 2: Workload Management with VMware vSphere Lifecycle Manager
- Module 3: Security, Troubleshooting, and Automation
