

## Advanced Tools for AIX Performance Analysis (AN52G)

**ID** AN52G **Price** CHF 3,100.—(excl. VAT) **Duration** 4 days

### Who should attend

The audience for this training includes AIX technical support personnel, performance benchmark personnel, and AIX system administrators.

### Prerequisites

You are expected to have extensive AIX skills. These skills can be obtained by attending the following courses:

- AIX Power Systems for AIX IV: Performance Management (AN510) or have the equivalent extensive AIX skills

### Course Objectives

Develop the skills to use kernel traces, trace based utilities, and svmon to measure and analyze CPU, memory, and I/O performance issues on IBM systems running AIX. Reinforce each lecture during extensive hands-on lab exercises and get practical experience applicable to their performance management requirements.

### Course Content

Develop the skills to use kernel traces, trace based utilities, and svmon to measure and analyze CPU, memory, and I/O performance issues on IBM systems running AIX. Reinforce each lecture during extensive hands-on lab exercises and get practical experience applicable to their performance management requirements.
