

## PowerHA 7 Planning, Implementing, Customizing and Administration (AN61G)

**ID** AN61G **Price** CHF 4,900.—(excl. VAT) **Duration** 5 days

### Who should attend

The audience for this advanced course is students who are experienced AIX system administrators with TCP/IP networking and AIX Logical Volume Manager (LVM) experience who are responsible for the planning and installation of a PowerHA SystemMirror 7.1 and later cluster on an IBM Power Systems server running AIX V6.1 or later. The lab exercises are conducted on an AIX 7.1 TL2 level system.

### Prerequisites

You should be AIX system administrator and have TCP/IP, LVM storage, and disk hardware implementation skills. These skills are addressed in the following courses or can be obtained through equivalent education and experience:

- *Power Systems for AIX II: AIX Implementation and Administration (AN12G)*

### Course Objectives

This course is designed to prepare students to install and configure a highly available cluster using PowerHA SystemMirror.

### Course Content

This course is designed to prepare students to install and configure a highly available cluster using PowerHA SystemMirror.
