

PowerHA 7 Planning, Implementing, Customizing and Administration (AN61G)

ID AN61G **Price** CHF 4,900.—(excl. VAT) **Duration** 5 days

Who should attend

The audience for this advanced course is students who are experienced AIX system administrators with TCP/IP networking and AIX Logical Volume Manager (LVM) experience who are responsible for the planning and installation of a PowerHA SystemMirror 7.1 and later cluster on an IBM Power Systems server running AIX V6.1 or later. The lab exercises are conducted on an AIX 7.1 TL2 level system.

Prerequisites

You should be AIX system administrator and have TCP/IP, LVM storage, and disk hardware implementation skills. These skills are addressed in the following courses or can be obtained through equivalent education and experience:

- *Power Systems for AIX II: AIX Implementation and Administration (AN12G)*

Course Objectives

This course is designed to prepare students to install and configure a highly available cluster using PowerHA SystemMirror.

Course Content

This course is designed to prepare students to install and configure a highly available cluster using PowerHA SystemMirror.
