

DB2 11 for z/OS Application Programming Workshop (CV722G)

ID CV722G **Price** CHF 2,600.—(excl. VAT) **Duration** 3 days

Who should attend

This intermediate course is for application programmers who need to write embedded SQL programs in COBOL or PL/I (on z/OS).

Prerequisites

You should already have experience with one of the supported programming languages, COBOL or PL/I for z/OS. You are also expected to already be able to construct and use SQL statements.

Course Content

This course enables you to acquire the skills necessary to produce application programs that manipulate DB2 databases.

Emphasis is on embedding Structured Query Language (SQL) statements and preparing programs for execution.
