

Introducing z/OS UNIX System Services (OP05G)

ID OP05G **Price** CHF 2,250.—(excl. VAT) **Duration** 3 days

Who should attend

This intermediate course is for all computer professionals who will use z/OS UNIX.

Prerequisites

You should have a basic knowledge of z/OS equivalent to the course An Introduction to the z/OS Environment (ES05G).

Course Objectives

- Discuss the role of z/OS in an open systems environment
- Identify the basic terms used in z/OS UNIX
- Define the components of z/OS UNIX
- Explain major functions provided in z/OS UNIX
- Discuss opportunities for applications in an z/OS UNIX environment
- Identify z/OS base elements and optional features that make up z/OS UNIX
- Use the two interactive interfaces available to access the services

Course Content

This course describes how open standards are implemented in a z/OS system by z/OS UNIX. UNIX System Services are introduced, and the role of z/OS as a server in the open systems environment is discussed. This is an introductory level course. It provides an overview of z/OS UNIX System Services (usually abbreviated to z/OS UNIX) as seen by the user. Details of installation and implementation for system programmers are not covered in this course.
