

IBM DS8000 - Implementation Workshop for System z (SSF1G)

ID SSF1G **Price** CHF 4,000.—(excl. VAT) **Duration** 2 days

Who should attend

This course is for system administrators, architects, and storage specialists. Anyone who needs to learn about DS8000 implementation and experiment with them on a real test configuration.

Prerequisites

You should have completed:

- Introduction to Storage (SS01G) • An understanding of DASD and data sets and how clients hosts access directly or through FICON channels.

Course Content

To learn the DS8000 storage subsystem and its hardware components and logical structure. You configure the DS8000 storage subsystem using a DS8000 Storage Manager GUI and review the DS CLI interface for scripting configuration functions. You will also perform dynamic data relocation using Easy Tier function. In addition we have a unit on the recently announced product called the DS8900F.
