

Advanced Juniper Networks IPSec VPN Implementations (AJVI)

ID AJVI **Price** US \$ 1,600.—(excl. VAT) **Duration** 2 days

Course Objectives

After successfully completing this course, you should be able to:

- Configure LAN-to-LAN IP Security (IPsec) VPNs in various configurations.
- Configure VPN redundancy.
- Configure dynamic routing using IPsec VPNs.
- Configure remote access IPsec connectivity including group Internet Key Exchange (IKE) and shared IKE.
- Configure generic routing encapsulation (GRE) tunnels.

Course Content

This two-day, intermediate-level course focuses on the wide range of options available when configuring virtual private networks (VPNs) using Juniper Networks firewall/VPN products. Students attending the course will learn these various deployments through detailed lectures and hands-on lab exercises. This course has been updated to Revision 6.c.
