Master Class: AI Kickstarter Leadership Empowerment (AIKLE)

ID AIKLE **Price** CHF 5,950.—(excl. VAT) **Duration** 4 days

Who should attend

The seminar is designed for leaders at all levels who want to become capable of steering in the AI era, with a focus on AI project and AI initiative management. Typical participants include:

- Leaders from business and functional areas (middle and upper management)
- Department and team leads with responsibility for staff and processes
- Managers who need to manage and be accountable for AI projects
- Leaders who want to prepare their organization for AI transformation

Prerequisites

No technical prior knowledge is required. The willingness to understand AI as a strategic leadership topic and to actively participate in shaping it is the most important prerequisite. A basic understanding of your own organizational processes is beneficial.

Course Objectives

- Understand the role of the leader in the AI era and develop a future-oriented AI mindset
- Deepen AI fundamentals in a practical way – including prompt engineering, RAG, agentic AI, and relevant regulation
- Learn and apply methods for AI project management
- Understand concrete AI deployment opportunities in a business-relevant context: new business models, process optimization, productivity enhancement
- Reflect on risks, limitations, and ethical aspects of AI
- Determine your own organization’s AI readiness maturity level and derive action areas
- Outline a concrete transformation roadmap for the next steps

Course Content

Day 1: Change Through and With AI – The Role of the Leader & AI Fundamentals

- Willkommen & Check-in
- Impulse: "VUCA+ and the 'AI Ready' Organization"
- VUCA+ competency model for leaders in the AI era
- Meet & Greet AIDA (AI team member)
