# Master Class: Terraform on AWS Infrastructure as a code (TFAWSIAC)

**ID** TFAWSIAC **Price** CHF 1,900.—(excl. VAT) **Duration** 2 days

## Prerequisites

- Basic knowledge in scripting
- Basic knowledge of cloud infrastructure (AWS).

## Course Objectives

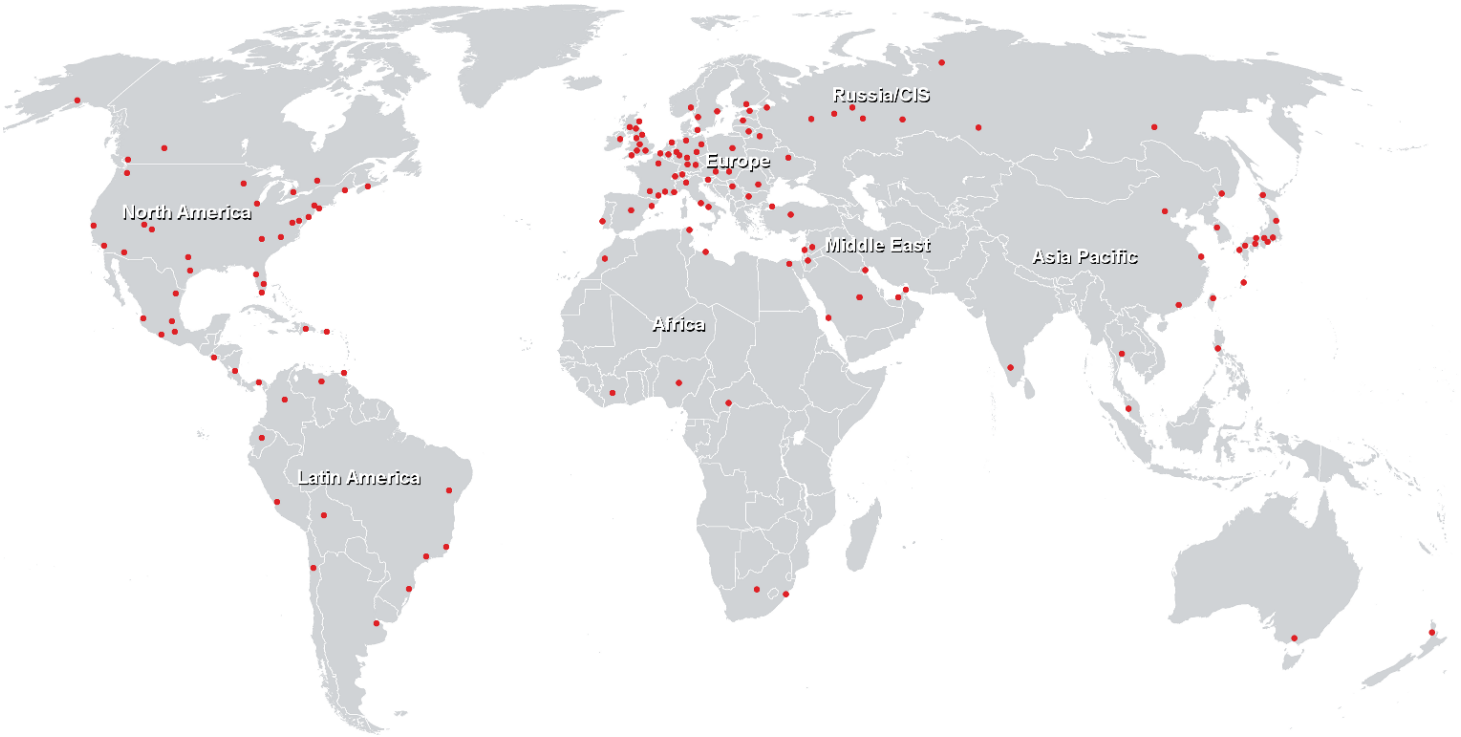

Participants gain a sound practical understanding of Infrastructure-as-Code (IaC) concepts and are able to independently implement their first infrastructure projects using Terraform and prepare for the official exam.

## Course Content

- Understand infrastructure as code (IaC) concepts
- Understand the purpose of Terraform (vs other IaC)
- Understand Terraform basics
- Use Terraform outside of core workflow
- Interact with Terraform modules
- Use the core Terraform workflow
- Implement and maintain state
- Read, generate, and modify configuration
- Understand Terraform Cloud capabilities
- Exam Simulation - HashiCorp Certified: Terraform Associate
- Understanding the concepts of Infrastructure as Code (IaC)
- Understanding the purpose of Terraform compared to other IaC tools
- Understanding the basics of Terraform
- Using Terraform outside the core workflow
- Interaction with Terraform modules
- Using the Terraform core workflow
- Implementation and maintenance of the state
- Read, generate and modify configuration
- Understanding the possibilities of Terraform Cloud
- Exam Simulation - HashiCorp Certified: Terraform Associate
