Introduction to Cloud Infrastructure (AZ-900T00)

ID AZ-900T00 **Price** CHF 870.—(excl. VAT) **Duration** 1 days

Who should attend

This course is suitable for IT personnel who are just beginning to work with Azure. This audience wants to learn about our offerings and get hands-on experience with the product. This course primarily uses the Azure portal and command line interface to create resources and does not require scripting skills. Students in this course will gain confidence to take other role-based courses and certifications, such as Azure Administrator. This course combines lecture, demonstrations, and hands-on labs. This course will also help prepare someone for the AZ-900 exam.

This course is part of the following Certifications

Microsoft Certified: Azure Fundamentals (MCAF)

Course Content

Introduction to Cloud Infrastructure: Describe cloud concepts

- Describe cloud computing
- Describe the benefits of using cloud services
