

## Microsoft 365 Endpoint Administrator (MD-102T00)

**ID** MD-102T00 **Price** CHF 3,920.—(excl. VAT) **Duration** 5 days

### Who should attend

The Microsoft 365 Endpoint Administrator is responsible for deploying, configuring, securing, managing, and monitoring devices and client applications in a corporate setting. Their duties include managing identity, access, policies, updates, and apps. They work alongside the M365 Enterprise Administrator to develop and execute a device strategy that aligns with the requirements of a modern organization. Microsoft 365 Endpoint Administrators should be well-versed in M365 workloads and possess extensive skills and experience in deploying, configuring, and maintaining Windows 11 and later, as well as non-Windows devices. Their role emphasizes cloud services over on-premises management technologies.

### This course is part of the following Certifications

Microsoft 365 Certified: Endpoint Administrator Associate (MCMDDAA)

### Prerequisites

The Modern Desktop Administrator must be familiar with M365 workloads and must have strong skills and experience of deploying, configuring, and maintaining Windows 11 and later, and non-Windows devices.

### Course Content

#### Explore endpoint management

- Explore the Enterprise Desktop
- Explore Windows Editions
- Manage Azure Active Directory Identities

#### Execute device enrollment

- Manage device Authentication
- Enroll devices using Microsoft Configuration Manager
- Enroll devices using Microsoft Intune

#### Configure profiles for user and devices

- Execute device profiles
- Oversee device profiles
- Maintain user profiles
