Build a foundation to build AI agents and extend Microsoft 365 Copilot (MS-4014)

ID MS-4014 **Price** CHF 390.—(excl. VAT) **Duration** 3 hours

Who should attend

Introduction to building AI agents is designed for builders and developers who want to build AI agents on Microsoft s agent platform. It s ideal for learners who are new to agent development or evaluating Microsoft s options, and who want to understand how to choose the right tools, ground and connect agents to their data and systems, and plan an agent solution end to end. Learners come from both low-code and pro-code backgrounds; no prior agent development experience is required.
