

Agility Daily Work (ADW)

ID ADW Price 1,450.— €excl. VAT) Duration 2 days

Who should attend

People who want to understand agility. People who want to find better ways to do their daily work more effectively, efficiently and with a better quality of life. People who want to use Scrum outside of software development.

Prerequisites

Willingness to engage with new ways of thinking.

Course Objectives

You will learn what agility is and how it can help you meet the challenges of everyday work.

Recognize the benefits of agile collaboration and which agile techniques and methods are helpful.

Using practical examples from everyday agile work, you will get an impression of the value that agility can have for you.

Together we will look for ways to implement agility in your everyday work.

Course Content
