ValueEdge Functional Test Digital Lab (2-5604)

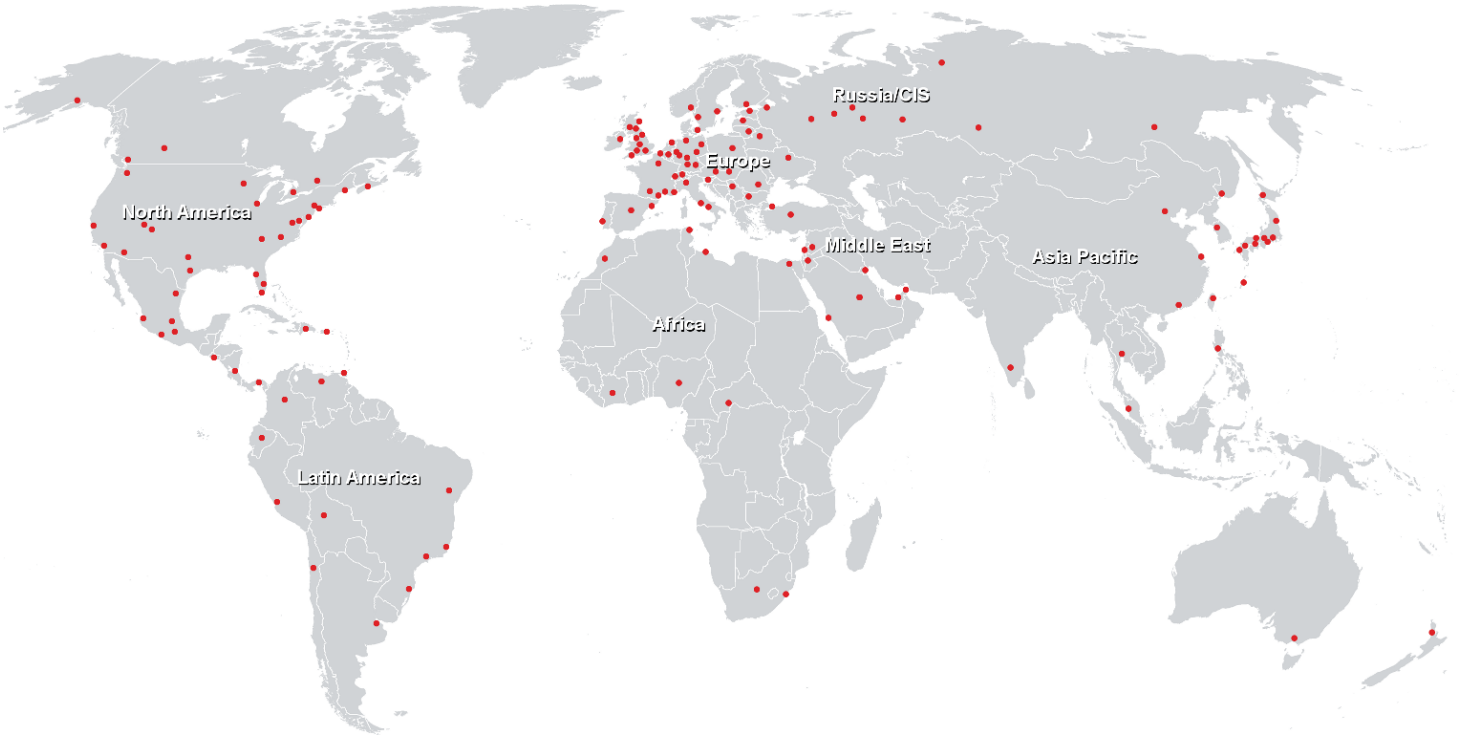

ID 2-5604 **Price** on request **Duration** 2 days

Course Content

This two-day, basic course explains the fundamentals of the OpenText ValueEdge Functional Test (VEFT) Digital Lab application. Designed for beginners, this course provides a comprehensive introduction to VEFT Digital Lab. The course describes how to develop, debug, test, monitor, and optimize mobile applications with a centralized end-to-end lab and management gateway.

The training comprises theory and practical sessions. You learn to use VEFT Digital Lab effectively for managing and testing mobile devices and cloud browsers in a remote digital testing environment.
