## ArcSight Enterprise Security Manager Advanced Analyst (2-7309)

**ID 2-7309** Price on request Duration 4 days

### Who should attend

This course is intended for Analysts and Content Engineers who:

- Define their organization's security objectives
- Build or using advanced content to correlate, view and respond to those security objectives

### Course Objectives

On completion of this course, you should be able to:

- Navigate ArcSight ESM console and command center to correlate, investigate, analyze, and remediate both exposed and obscure threats.
- Construct ArcSight variables to provide advanced analysis of the event stream.
- Develop ArcSight lists and rules to allow advanced correlation activities.
- Optimize event-based data monitors to provide real-time viewing of event traffic and anomalies.
- Design new report templates and create functional reports.
- Find events through the search tools.

### Course Content

- Create ArcSight Variables
- Develop ArcSight Lists and Rules
- Create Data Monitors and Dashboards
