Samsung Knox Fundamentals (SKTT)

ID SKTT **Price** on request **Duration** 1 days

Who should attend

This workshop is designed for IT professionals involved in mobile devices deployments, from server-side administration to end-user device enrollment and configuration. Basic experience with Android mobile devices in general is required; experience with Samsung (Knox) devices and UEM solutions would be beneficial.

Prerequisites

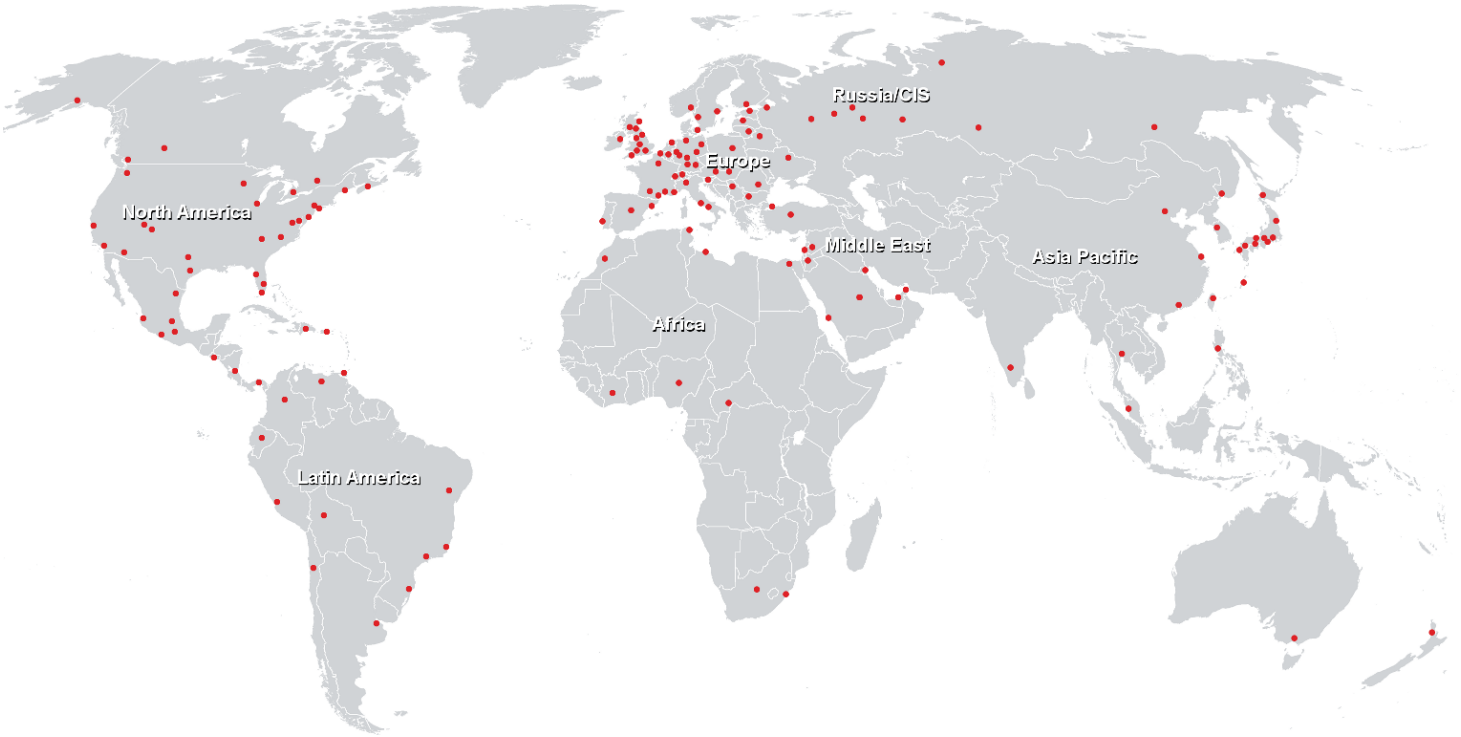

- We strongly recommend to first attend the Android Enterprise Fundamentals (AETT).
- Personal laptop to access training material and perform hands-on labs.
- Supported mobile device (Samsung Knox) for hands-on labs.

Course Content

- Introduction to Samsung Knox
- Benefits of Samsung Knox Security
    - Comparison with Android Enterprise
- Knox Platform for Enterprise
- Knox Workspace
    - Knox Manage
    - Knox E-FOTA
    - Knox Mobile Enrollment
    - Knox Configure
- Supported Knox Devices
- Knox Enterprise Support
- Knox Licensing
- Integration with EMM solutions
- Customer Cases
- Questions and Answers
