

Prisma SD-WAN: Design and Operation (EDU-238)

ID EDU-238 Price on request Duration 5 days

Who should attend

- Network Engineers,
- Network Administrators,
- Network Security Engineers
- Network Architects
- NOC Administrators

Prerequisites

Participants should have: a basic knowledge (1+ years) of routing and switching, including Border Gateway Protocol (BGP), experience deploying and operating WANs, and use of network monitoring tools such as LiveAction, Netscout, and Splunk; experience with DNS, DHCP, and IP management tools; familiarity with scripting and APIs as they relate to network automation

Course Objectives

Successful completion of this five-day, instructor-led course will help enhance your understanding of how to design, implement, and effectively operate a Prisma SD-WAN solution. You will get hands-on experience configuring Prisma SD-WAN with a branch and datacenter, configure policies, and use Prisma SD-WAN services.
